Kaylee	August	University of Florida	Gainesville	FL	United States	SOIL NUTRIENT ENRICHMENT POST HYDROLOGIC MANAGEMENT: A TEMPORAL ANALYSIS OF TAYLOR SLOUGH	Poster
Sanjana	Banerjee	University of Louisiana at Lafayette	Lafayette	LA	United States	TURNING A LIABILITY INTO AN ASSET: CAN WE USE THE INVASIVE APPLE SNAIL <i>POMACEA MACULATA</i> IN BIOMONITORING OF METAL CONTAMINATION IN FRESHWATER MARSHES?	Poster
Regina	Bledsoe	East Carolina University	Greenville	NC	United States	GREENHOUSE GAS POTENTIAL OF A CONSTRUCTED STORMWATER WETLAND	Poster
Ashley	Booth	Louisiana State University	Baton Rouge	LA	United States	Understandings mechanisms for marsh sustainability in the face of sea level rise	Poster
Bahram	Charkhian	South Florida Water Management District	West Palm Beach	FL	United States	Restoration Benefits Observed from the Biscayne Bay Coastal Wetlands Project	Poster
Michael	Chimney	South Florida Water Management District	West Palm Beach	FL	United States	LONG-TERM TREATMENT PERFORMANCE OF CONSTRUCTED WETLANDS BUILT FOR EVERGLADES RESTORATION	Poster
Brittany	Dolan	Florida Gulf Coast University	Fort Myers	FL	United States	Comparison of heat flux reduction in a wetland modular rooftop garden system and a xeric rooftop garden system in Southwest Florida	Poster
Bobby	Duersch	Florida Atlantic University	Boca Raton	FL	United States	PHOSPHOROUS ANALYSES INCLUDING P-31 NUCLEAR MAGNETIC RESONANCE SPECTROSCOPY IN THE C51 BASIN AND NORTHERN EVERGLADES	Poster
Rebecca	Flock	College of Western Idaho	Nampa	ID	United States	INVESTIGATION OF ECOSYSTEM SERVICES PROVIDED BY SEASONALLY EMERGENT WETLAND BETWEEN AN AGRICULTURAL DRAIN AND IRRIGATION CATCHMENT IN SOUTHWEST IDAHO.	Poster
Lauren	Griffiths	University of South Florida	Naples	FL	United States	Nutrient Retention via Vegetative Uptake and Sedimentation in Created Wetlands in Subtropical Florida	Poster
Rachel	Harris	Loxahatchee River District	Jupiter	FL	United States	ENTEROCOCCI IN WRACK SEDIMENTS AND SURFACE WATER	Poster
Jordan	Heiman	Missouri State University	Springfield	MO	United States	What is the Metal Content of Gravel Bar Vegetation in a Contaminated River?	Poster
Nia	Hurst	University of Central Florida	Orlando	FL	United States	HURRICANE IRMA: BIOGEOCHEMICAL RESPONSES IN A MANGROVE ENCROACHED FLORIDA SALT MARSH	Poster

First Name	Last Name	Organization	City	ST	Country	Abstract Title	Format
Colin	Jackson	University of Mississippi	University	MS	United States	TEMPORAL PATTERNS IN ENZYME ACTIVITY AND BACTERIAL COMMUNITY STRUCTURE OF THE PHYLOSOPHERE OF THE WETLAND MACROPHYTE TYPHA LATIFOLIA	Poster
Jan	Janse	PBL Neth. Environmental Assessment Agency	The Hague		Netherlands	TOWARDS A GLOBAL MODEL FOR WETLANDS ECOSYSTEM SERVICES.	Poster
Alex	Johnson	Purdue University	West Lafayette	IN	United States	EFFECTS OF FLOODPLAIN RESTORATION IN AGRICULTURAL WATERSHEDS ON PHOSPHORUS DYNAMICS	Poster
Paul	Julian	University of Florida	Fort Pierce	FL	United States	RIVER RUNS THROUGH IT. EVALUATION OF GROUNDWATER AND SURFACE WATER CONNECTIVITY AND ITS IMPLICATION ON RIPARIAN BIOGEOCHEMISTRY AND ECOLOGY.	Poster
Christopher	Kavanagh	National Park Service	Key Largo	FL	United States	EFFECTS OF HURRICANE IRMA ON COASTAL EVERGLADES WATERS IN FLORIDA BAY	Poster
Irina	Kravchenko	Research Center of Biotechnology RAS	Moscow		Russian Federation	POST-FIRE IMPACT ON THE BACTERIAL COMMUNITY IN DRAINED NORTHERN PEATLAND	Poster
Sydni	Law	East Carolina University	Greenville	NC	United States	Carbon budget of an Eastern North Carolina coastal freshwater wetland following phosphorus addition	Poster
Changkeun	Lee	Seoul National University	Seoul		Korea-Republic of (KOR)	ASSESSMENT OF ECOSYSTEM SERVICES FOR MARINE SPATIAL PLANNING: A PILOT STUDY ON REGULATING AND SUPPORTING SERVICES IN TIDAL FLAT, KOREA	Poster
Jing	Liu	Florida Atlantic University	Boca Raton	FL	United States	Assessing Significant of Different Environmental Drivers Impact Coastal Wetlands Elevation Change in Louisiana	Poster
Bryan	Locher	University of Central Florida	Orlando	FL	United States	IMPACTS OF RESTORATION ON BIOGEOCHEMISTRY OF INTERTIDAL OYSTER REEFS IN THE INDIAN RIVER LAGOON, FLORIDA	Poster
Cristina	Lopardo	Florida Gulf Coast University	Fort Myers	FL	United States	CONSTRUCTED WETLANDS FOR SALTWATER AQUACULTURE WASTEWATER TREATMENT USING A FLOATING TREATMENT WETLAND BIOREACTOR SYSTEM AND WETLANDS MODIFIED WITH BIODEGRADABLE PLASTICS	Poster
Luka	Ndungu	Florida Gulf Coast University	Fort Myers	FL	United States	MICROSCALE HYDROGEN PEROXIDE MEASUREMENTS OF CYANOBACTERIAL BLOOMS IN SOUTHWEST FLORIDA LAKES	Poster

First Name	Last Name	Organization	City	ST	Country	Abstract Title	Format
Anna	Normand	American Geosciences Institute	Alexandria	VA	United States	BIOGEOCHEMISTRY IN CONGRESS	Poster
Anna	Normand	American Geosciences Institute	Alexandria	VA	United States	Soil Carbon Composition of Florida Peatlands	Poster
Chukwuebuka	Nwobi	School Of Geosciences, University Of Edinburgh	Edinburgh		United Kingdom	MANGROVE FOREST BIOMASS ESTIMATES, COMMUNITY STRUCTURE AND CLASSIFICATION IN THE NIGERIAN NIGER DELTA	Poster
Ting	Pan	Anhui Academy of Forestry	Hefei		China	MODELS FOR VEGETATION RESTORATION OF FRESHWATER FORESTED WETLANDS: A CASE STUDY OF ANQING CITY	Poster
Eliska	Rejmankova	University of California, Davis	Davis	CA	United States	ECOLOGICAL CONSEQUENCES OF INVASIVE PLANT SPECIES INTRODUCTION TO VOLCANIC LAKES IN CENTRAL AMERICA: AN EXAMPLE OF LAKE ATITLAN, GUATEMALA	Poster
Andres	Rodriguez	University of Florida	Gainesville	FL	United States	Changes in carbon and nitrogen in a drained subtropical wetland. The case of the Everglades Agricultural Area	Poster
Andre	Rovai	Louisiana State University	Baton Rouge	LA	United States	GLOBAL CONTROLS OF CARBON STORAGE IN MANGROVE SOILS	Poster
Tracey	Schafer	University of Florida	Gainesville	FL	United States	Effects of Hurricane Irma on Dissolved Organic Carbon Fluxes along a Salinity Gradient	Poster
Mark	Sees	City of Orlando	Christmas	FL	United States	The Orlando Easterly Wetlands - 30 Years of Constructed Success	Poster
Dagmara	Sirova	Biology Centre CAS	Ceske Budejovice		Czech Republic	HOW CAN THE INVASIVE SUBMERSED MACROPHYTES STAY SO HIGHLY PRODUCTIVE IN A NITROGEN LIMITED LAKE? MOLECULAR ANALYSIS OF ASSOCIATED DIAZOTROPHS MAY PROVIDE THE ANSWER	Poster
Sabrina	Tabassum-Tackett	University of Louisiana at Lafayette	Lafayette	LA	United States	Bioaccumulation and Effects of Cadmium in Three Phytoplankton Species: <i>Akashiwo sanguinea</i> , <i>Heterosigma akashiwo</i> , and <i>Coscinodiscus sp</i>	Poster
Mohsen	Tootoonchi	University of Florida	davie	FL	United States	EVALUATING DIFFERENT SALTS AS PROXIES FOR BRACKISH WATER IN SEA LEVEL RISE AND CLIMATE CHANGE RESEARCH	Poster

First Name	Last Name	Organization	City	ST	Country	Abstract Title	Format
Hidetoshi	Urakawa	Florida Gulf Coast University	Fort Myers	FL	United States	COMPLETE GENOME SEQUENCING REVEALED THE EVOLUTION, ADAPTATION AND COSMOPOLITAN DISTRIBUTION OF NITROSOSPIRA LACUS	Poster
