Eucalyptus in Uruguay: Montes del Plata

Partial integration of ecosystem services in integrated production systems - Alianzas

- Two scenarios: business as usual, increase Alianzas by 24,000 hectares over four years
- Ecosystem services considered: plantation productivity, cattle productivity, diversification of income, increase in income, carbon sequestration, increase in rural employment, fire regulation, expanding sustainability practices

Audience

- Montes del Plata stakeholders, cattle ranchers, Uruguayan ministries, IDB

Palm oil in Ecuador: La Fabril & Banco de Guayaquil

Costs and benefits of RSPO certification

- Benefits: improved productivity, price premium, access to markets, access to credit
- Costs: legal compliance, technical assistance, improved management practices

Environmental and social impacts of RSPO certification

- Three scenarios: business as usual, IDB loan, IDB loan + certification
- Indicators include: water, soil, natural habitat protection, labor conditions, access to credit, income

Audience

- La Fabril, other palm processors and producers, IDB

PRIVATE SECTOR WITH PURPOSE

Uncertainty in projects

Montes del Plata, Ecuador

- Incomplete analysis of ecosystem services
- Number of ranchers participating in the project
- Market prices
- Incomplete data
- Unpredictability of ecosystem services provision

La Fabril, Ecuador

- Producers' participation in credit line, use of credit
- Producers' compliance with RSPO principles & criteria
- Market benefits of RSPO
- Relationship between change in producers' practices and ecosystem service provision
- Incomplete data

A photograph of a lush, green forest landscape. In the foreground, there are dense bushes with bright pink and yellow flowers. The middle ground is filled with various green trees and foliage. In the background, a large, rounded tree stands prominently against a backdrop of misty, fog-covered mountains.

Our deal is with the future.
