

CEER 2014 Poster Directory
(In alphabetical order by presenting author's last name)

As of: 7/24/2014

Poster #	First Name	Last Name	Prof Title	Organization	Dept/Div	City	State/ Province	Country	Abstract Title
47	Rouzi	Aihemaitijiang	Ph.D Candidate	University of Greifswald	Botany and Landscape Ecology	Greifswald		Germany	Riparian Tugai Vegetation Restoration Along The Tarim River In Northwest, China In The Context Of Apocynum
89	Martins	Anetekhai	Professor	Lagos State University	Fisheries	Ojo		Nigeria	Aqua-Economic Mapping: Concept Notes
85	Robert	Bazeley	Student	Memorial University	Earth Sciences	St. John's	NL	Canada	Testing the Ability of Biofoul for the Purposes of Enhanced Remediation of Acid Mine Drainage
24	Narayana	Bhat	Senior Research Scientist	Kuwait Institute for Scientific Research	Environment and Life Sciences	Kuwait		Kuwait	Coastal Rehabilitation Through Sustainable Management Of Mangrove Community In Kuwait
57	Laila	Bidak	Profesor of Plant Ecology	Faculty of science	Botany & Microbiology department	Alexandria		Egypt	An Overview of Goods and Services of the Arid Ecosystem in the North Western Coastal Region, Egypt
61	Rich	Biemiller	Research Assistant	University of Kentucky	Entomology	Lexington	KY	United States	Evaluating The Influence Of Disturbance On Macroinvert. Colonization And Decomp. Of Leaf Packs In Upper Coastal Plain Streams
75	Joel	Bingham	Restoration Biologist	EnviroScience, Inc.		Stow	OH	United States	Metric Selection To Establish A Condition Gradient Between Natural And Impaired Streams For Restoration Performance
65	Stacey	Blersch	PhD Candidate	University at Buffalo ERIE Program		Buffalo	NY	United States	Using Stream Metabolic Measurements To Quantify Restoration Of Ecosystem Services Of Impaired Streams
29	Darryl	Boudreau	Director of FL County Government Relations	The Nature Conservancy		Milton	FL	United States	A Watershed Approach to Restore Florida's Coastal Communities
28	Stefan	Bourgoin	Principal technical Professional	Atkins		Jacksonville	FL	United States	Accelerating Recovery After The <i>Deepwater Horizon</i> Oil Spill: Response Of The Macroinvertebrate Communities To Shoreline Oiling Effects
13	Nuno	Caiola	Researcher	IRTA	Aquatic Ecosystems	Sant Carles de la Ràpita		Spain	Restoration Strategy Of Mediterranean Coastal Lagoons
66	Scott	Campbell	Physical Scientist/GIS Specialist	U.S. Army Corps of Engineers	Seattle District	Seattle	WA	United States	Integrating Flood Risk Management And Salmon Habitat Restoration Priorities In Puget Sound: GIS Site Prioritization
5	Grady	Caulk	Archeologist	U. S. Army Corps of Engineers, Jacksonville District	Planning	Jacksonville	FL	United States	Archeology And Everglades Restoration
39	Matthew	Clark		W.F. Baird & Associates Ltd.		Madison	WI	United States	Decline And Disappearance Of Submerged Aquatic Vegetation In The Rio Cruces Estuary, Chile
1	Paul	Conrads	Hydrologist	USGS SC Water Science Center		Columbia	SC	United States	Automated Data Assurance And Management Software For Real-time Quality Control For The Everglades Depth Estimation Network
2	Paul	Conrads	Hydrologist	USGS SC Water Science Center		Columbia	SC	United States	Hypothetical Water Surfaces For Evaluating Everglades Ecosystem Restoration
45	Heather	Cray	PhD Student	University of Waterloo	Environment and Resource Studies	Waterloo	ON	Canada	Succession In Tundra Landscapes And Its Implications For Polar Restoration Efforts: Case Study Of Herschel Island, YT, Canada
71	William	Crumpton	Professor	Iowa State University	Department of Ecology, Evolution and Organismal Biology	Ames	IA	United States	Water Quality Performance Of Wetlands Receiving Nonpoint Source Nitrogen Loads: Benefits Of Targeted Wetland Restorations
63	Bernd	Cyffka	Professor	Catholic University of Eichstaett-Ingolstadt	Floodplain Institute Neuburg	Eichstaett		Germany	Ecosystem Services Of Riparian Forest Under Water Stress
52	Kurt	Dreisilker	Manager of Natural Resources	The Morton Arboretum		Lisle	IL	United States	Enhancing Establishment of White Oak and American Hazelnut Enrichment Plants in a Mesic Forest Using Understorey Removal and Group Selection
22	Crawford	Drury	PhD Candidate	University of Miami, RSMAS	Marine Biology and Fisheries	Miami	FL	United States	The Effects Of Coral Genotype On Restoration Success In The Threatened Caribbean Staghorn Coral, <i>Acropora cervicornis</i>

CEER 2014 Poster Directory
(In alphabetical order by presenting author's last name)

As of: 7/24/2014

Poster #	First Name	Last Name	Prof Title	Organization	Dept/Div	City	State/ Province	Country	Abstract Title
7	Dennis	Duke	Senior Policy Advisor	US Department of the Interior	Office of Everglades Restoration Initiatives	Miami	FL	United States	Everglades Restoration: The Legend, The Dream, The Reality
44	Cynthia	Edwards	Science Coordinator	Gulf Coast Prairie LCC		Lafayette	LA	United States	Advancing The Gulf Coast Prairie Lcc Science Strategy
33	Helen	Forgione	Senior Project Manager	Natural Areas Conservancy		New York City	NY	United States	Citywide Ecological Assessment: A Tool For Prioritizing Management In NY
58	Eduardo	Gonzalez	Postdoctoral Fellow	University of Denver	Department of Biological Sciences	Denver	CO	United States	Drivers Of Plant Composition In Riparian And Isolated Swamps Of Southeastern Canada
60	Eduardo	Gonzalez	Postdoctoral Fellow	University of Denver	Department of Biological Sciences	Denver	CO	United States	Evaluation Of Success In Tamarix Control Efforts In The Colorado And Rio Grande Catchments
59	Eduardo	Gonzalez	Postdoctoral Fellow	University of Denver	Department of Biological Sciences	Denver	CO	United States	Relative Importance of Spatial Components Over Local Factors in Plant Succession of Riparian Zones Restored by Plantations
46	Gwyneth	Govers	MES Candidate	University of Waterloo		Waterloo	ON	Canada	Bloodroot (Sanguinaria Canadensis) As A Deterrent To The Spread Of Invasive Garlic Mustard (Alliaria Petiolata)
49	Sarah	Hall	Assistant Professor	Berea College	Agriculture & Natural Resources	Berea	KY	United States	Reforestation Appalachian Surface Mines: A Black Walnut Pilot Study (Nursery Stock Vs. Seed, With or Without Tree Shelters)
18	Steven	Hall	Professor	LSU AgCenter	Biological and Agricultural Engineering	Baton Rouge	LA	United States	Coastal Bioengineering For Ecological Restoration
81	Haley	Harguth	Hershman Marine Policy Fellow	Puget Sound Partnership		Tacoma	WA	United States	Putting Humans Back In The Ecosystem: Developing Human Dimensions Tools For Large Ecosystem Recovery Planning In Puget Sound
35	Samantha	Hart		Clemson University		Clemson	SC	United States	A Model for Identifying Sites Susceptible To Chinese Privet (Ligustrum Sinense) Invasion in the Appalachian Piedmont
82	Matthew	Herron	Student	University of Louisiana at Monroe	Biology	Monroe	LA	United States	Effects Of Three Management Strategies On 30 Year Old Bottomland Hardwood Restoration Site
54	Cris	Hochwender	Professor of Biology	University of Evansville	Biology	Evansville	IN	United States	Exploring Native Prairie Grasses As Competitors To Suppress Growth Of The Invasive Grass Sorghum Halepense
51	Matt	Horning	Geneticist	USDA Forest Service	Deschutes National Forest	Bend	OR	United States	Seed Zones And Plant Material Movement Guidelines In The Pacific Northwest: Past, Present And Future
62	Jamil	Ibrahim	Principal Hydrologist	MWH Americas, Inc.		Sacramento	CA	United States	Reintroduction Of Anadromous Salmonids Above Shasta Dam: Opportunities And Challenges
34	Heather	Jensen	Biologist/Project Manager	U.S. Army Corps of Engineers - Philadelphia District	Planning Division	Philadelphia	PA	United States	Challenges In Planning Urban Stream Restoration Projects
67	Shannon	Jones	Masters Student	Texas Christian University	Environmental Science	Fort Worth	TX	United States	Hydrologic Response Of Hillslope Seeps And Headwater Streams Of The Fort Worth Prairie
32	Demetra	Kandalepas	Postdoctoral Researcher	Tulane University	Ecology and Evolutionary Biology	New Orleans	LA	United States	Important Symbionts Of Spartina Alterniflora Are Sensitive To Restoration Status
50	James	Kelly	Environmental Scientist/Restoration Ecologist	3Point Eco-Logical, LLC		Ocean Springs	MS	United States	Restoring Wet Pine Savannah Impacted by Ditch Construction in Hancock County, Mississippi, USA
8	Susan	Kemp	Outreach Coordinator	U.S. Geological Survey	Forest & Rangeland Ecosystem Science Center	Corvallis	OR	United States	Upstream Constraint Effects On Quantity, Quality, Timing, & Distribution Of Everglades Waters To The South Florida Estuaries
12	Fahmida	Khatun	Senior Engineer	South Florida Water Management District	Water Resources Division	West Palm Beach	FL	United States	Northeast Florida Bay Minimum Flows And Levels Update, 2013 Using The Regional Simulation Model
14	Denise	Knapp	Director of Conservation and Education	Santa Barbara Botanic Garden		Santa Barbara	CA	United States	Revegetation Experiment Reveals Native Plant Thresholds Required For Arthropod Assemblage Restoration
40	Christine	Laporte	Science Education and Outreach Coordinator	ECOGIG - Ecosystem Impacts of Oil and Gas Inputs to the Gulf	UGA Marine Sciences	Athens	GA	United States	ECOGIG* and "Telescience": Research Cruises Utilize Immersive Technology for DWH Research and Education
6	Andrew	LoSchiavo	Senior Biologists	U.S. Army Corps of Engineers - Jacksonville	Planning Division/Environmental Branch	Jacksonville	FL	United States	Everglades Ecosystem Restoration Status: Science Based Assessment of Restoration Progress

CEER 2014 Poster Directory
(In alphabetical order by presenting author's last name)

As of: 7/24/2014

Poster #	First Name	Last Name	Prof Title	Organization	Dept/Div	City	State/ Province	Country	Abstract Title
53	David	Mahler	Ecologist	Environmental Survey Consulting		Austin	TX	United States	Restoration Of Forb And Woody Species In The Texas Hill Country
68	Thomas	Maier	Biologist	USACE-Pittsburgh District	Lakes & Rivers Division	Pittsburgh	PA	United States	Innovative Approach For Using Built Water Resources Infrastructure For Ecosystem Restoration
48	Jose Luis	Martinez	Doctor in Ecology	Universidad Juarez Autonoma de Tabasco	Ciencias Biologicas	Villahermosa		Mexico	How Much is The Carbon Sink in The Vegetation of a Tropical Pasture?
72	Kelly	Mattfield	PE	Brown and Caldwell		Milwaukee	WI	United States	Stream Restoration Design – Ecological Restoration And TMDL Compliance
64	Carol	Maxwell	MLA Candidate	Temple University	Landscape Architecture/Land Restoration	Ambler	PA	United States	The Islands Of The Delaware River: Using GIS To Prioritize Restoration And Conservation Efforts
55	C. Ellery	Mayence	Restoration Ecologist	University of Western Australia and Kings Park and Botanic Garden	School of Plant Biology	West Perth	WA	Australia	Early Days of Shrubland Rehabilitation In An Arid Coastal Setting: Insight Gained Through Pilot Projects and Trial and Error At A Sea Salt Facility In Western Australia
19	Wayne	McCoy	President	Mid Atlantic Environmental LLC		Virginia Beach	VA	United States	An Alternative Method For Offshore Revetments
26	Jim	McFarlane		Reef Ball Foundation			FL	United States	22 Years of Worldwide Reef Ball Coastal Restoration
25	Mark	McKelvy	Computer Scientist	U.S. Geological Survey, Southeast Ecological Science Center		Gainesville	FL	United States	Visualizing Climate Change Scenarios For Florida's Restoration And Conservation Efforts
69	Ehab	Meselhe	Director of Natural Systems	The Water Institute of the Gulf		Baton Rouge	LA	United States	Mississippi River Sediment Diversions and Dedicated Dredging: Advancement in Numerical Modeling
78	Beth	Middleton	Research Ecologist	National Wetlands Research Center		Lafayette	LA	United States	Molecular and Cytological Identification of Cattail Taxa in National Parks
21	Debbie	Miller	Professor	Univeristy of Florida- IFAS	West Florida Research and Education Center	Milton	FL	United States	Can The Use Of Surrogate Wrack Promote Survival And Growth Of Planted Uniola Paniculata And Dune Building?
17	Alek	Modjeski	Habitat Restoration Director	American Littoral Society		Highlands	NJ	United States	Post-Sandy Bradley Beach Maritime Forest Creation: A Small Scale Resiliency Project With Large Scale Application
88	Juan	Moya	Coastal Program Director	Freese & Nichols, Inc.		Austin	TX	United States	Eco-Geomorphologic Evolution Of The Brazos River Delta And West Galveston Bay In The Last 10,000 Years: A Texas Case Study
37	Tamara	Newcomer Johnson	PhD Candidate	University of Maryland	SSMC3, Rm 11876	Silver Spring	MD	United States	Effects Of Stormwater Management And Stream Engineering On Watershed Nitrogen Retention
74	Susana	Ochoa-Gaona	Doctor in Sciences	El Colegio de la Frontera Sur	Sustainability Science	Campeche		Mexico	Germination Of Tropical Tree Species In Heavy Petroleum Contamination: A Promissory Restoration Way
9	Timothy	Osborn	Regional Navigation Manager	NOAA		Silver Spring	MD	United States	Enhancements To The Northern Gulf Coast For Coastal Water Levels, Surge Monitoring And Positioning
10	Timothy	Osborn	Regional Navigation Manager	NOAA		Silver Spring	MD	United States	Surveying And Updating Our Other Coastal Environment
27	William	Precht	Director	Dial Cordy & Associates, Inc.	Marine and Coastal Programs	Miami Lakes	FL	United States	Johnson's Seagrass: Introduced Exotic Or Rare, Threatened Species?
43	Candice	Prince	PhD Student	University of Florida - IFAS	Department of Environmental Horticulture	Gainesville	FL	United States	Isolating Mechanisms of Invasion: Exploring the Link Between Ruellia Simplex and Stormwater-Impacted Soils
87	Richard	Raid	Professor of Plant Pathology	University of Florida	IFAS/EREC	Belle Glade	FL	United States	A Push-Pull, IPM Scheme For The Protection Of Barn Owl Nests Boxes And Cane Workers From Invasive Africanized Honey Bees
11	George	Ramseur	Marine Administrator II	Mississippi Department of Marine Resources		Biloxi	MS	United States	Restoration Of Coastal Habitats In Mississippi Through The Programmatic Reuse Of Dredged Materials
73	Ann	Redmond	Managing Scientist	Brown and Caldwell		Maitland	FL	United States	Sustainable Source Water Protection – An Action Plan For Big Creek Lake
