

A Comprehensive Regional Effort to Enhance Integrated Coastal Management in the Mediterranean and the Black Sea Countries: The PEGASO Project of EU FP7

Dr. Erdal Özhan

Mediterranean Coastal Foundation - MEDCOAST (Turkey)

**EMECS 9 International Conference, 28-31 August 2011,
Baltimore, USA**

ICZM in the MED & BLACK SEA

The ICZM Protocol for the Mediterranean

**ICZM Protocol was signed
In Madrid, Spain on
21 January 2008.**

It was ratified in April 2011.

PEGASO Project

“People for Ecosystem based
Governance Assessing Sustainable
Development of Ocean and coast”

FP7-ENV.2009.2.2.1.

Feb 2009 – Jan 2014

Led by [Autonomous University of Barcelona](#), Spain.

People for Ecosystem based Governance
in Assessing Sustainable development of
Ocean and coast: pegasoproject.eu

An Integrated Coastal Zone Management (ICZM) Project for the Mediterranean and Black Seas

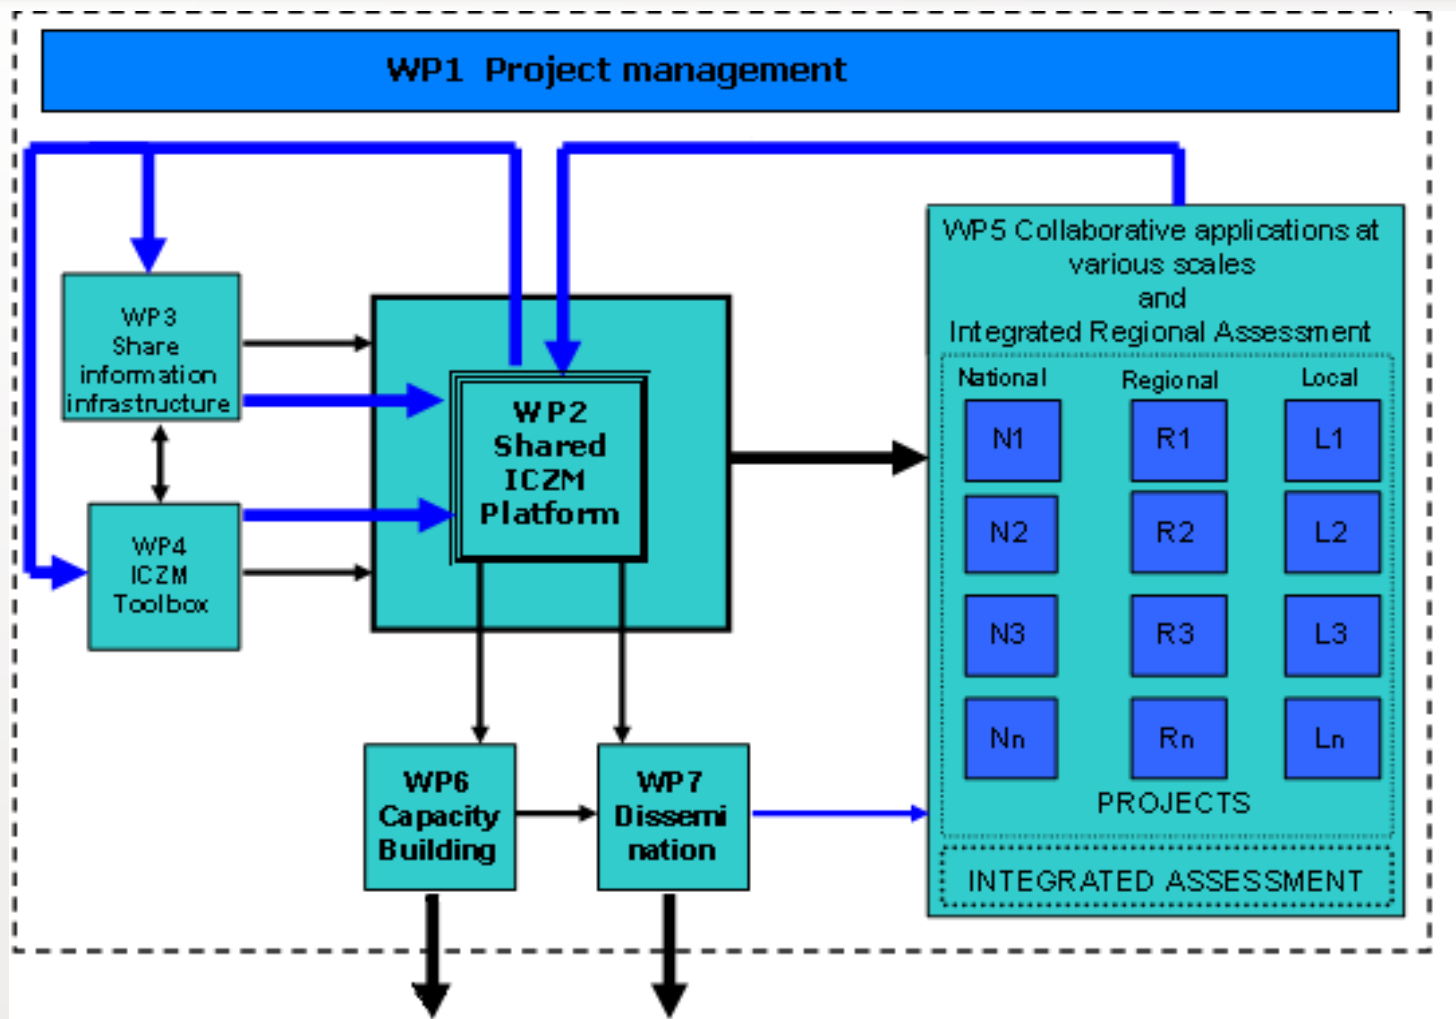

pegasoproject.eu

Seven Work Packages

- WP1 Project management
- WP2 Shared ICZM Governance Platform for the MED & BS
- WP3 Shared information infrastructure for the MED & BS
- WP4 Multi-scale tools, methods and models for integrated assessment
- WP5 Collaborative applications at various scales (CASES) and integrated regional assessment for the MED & BS
- WP6 Capacity building
- WP7 Dissemination

Project structure

WP2 Shared ICZM Governance Platform

- Conceptual framework for ICZM including the Ecosystem Approach
- Stock-take of users' ICZM policy, legal, financial and institutional frameworks
- Stock-take of ICZM scientific development
- Building a sustainable interactive 'Shared ICZM Governance Platform' for ocean and coastal evaluation and assessment by policy makers, managers, scientists and other stakeholders

WP3 Shared information infrastructure

- Assessment on the data availability and data needs for the development of the PEGASO Spatial Data Infrastructure
- Implementation of Spatial Data Infrastructure for PEGASO
- Develop a PEGASO common content management platform
- Creation and maintenance of a collaborative web portal www.pegasoproject.eu

WP 4 – Tools, methods & models

- Indicators to measure sustainable development of coast and sea
- Coastal land and marine ecosystem accounting (LEAC)
- Scenarios
- Participatory methods
- Economic assessment

- Seven Mediterranean & Three Black Seas CASES
(Case studies)

MED: France, Northern Adriatic (Italy), Greece,
Turkey, Lebanon, Egypt, Morocco

BS: Romania, Ukraine, Georgia

- Regional Assessment for the Mediterranean and Black

General Project Meetings/Conferences

- Month 3 in Italy (Venice)
- Month 20 in Romania (Danube Delta)
- Month 35 in Morocco (Rabat)
- Month 48 in Turkey
(Project Closure Conference)
