

Partnerships Driving Ecosystems Restoration on Private Lands in the Yazoo Basin

Trey Cooke, Delta F.A.R.M. & Delta Wildlife

Richard Ingram, Mississippi Department of Environmental Quality

Andrew Peck, Ph. D., The Nature Conservancy

Al Garner, USDA Natural Resources Conservation Service

Ed Penny, Mississippi Department of Wildlife, Fisheries and Parks

Before a partnership can be successful,
you must build a successful partnership.

1. What is the issue?
2. Who is concerned about the issue?
3. Who are the experts on the issue?
4. Who can affect the issue?
5. Is the issue relevant to those who can affect the issue?

Successful natural resource partnership must include those who have title to the land!
