

America's Watershed Initiative Report Card

National Conference Ecological Restoration Chicago, IL August 1, 2013

America's Watershed Initiative

Now think about:

Reservoir levels

Dam operations

Policy development

In-stream flows

Infrastructure

Public funding

Stephen Gambrell
Mississippi River Commission, USACE

Teri Goodman
City of Dubuque

Steve Mathies, PhD
Lower Mississippi River Basin

Dan Mecklenborg
Ingram Barge Co.

Barb Naramore
State of Minnesota

Michael Reuter
Great Rivers Partnership
The Nature Conservancy

Rainy Shorey
Caterpillar Inc.

Roger Wolf
Iowa Soybean Association

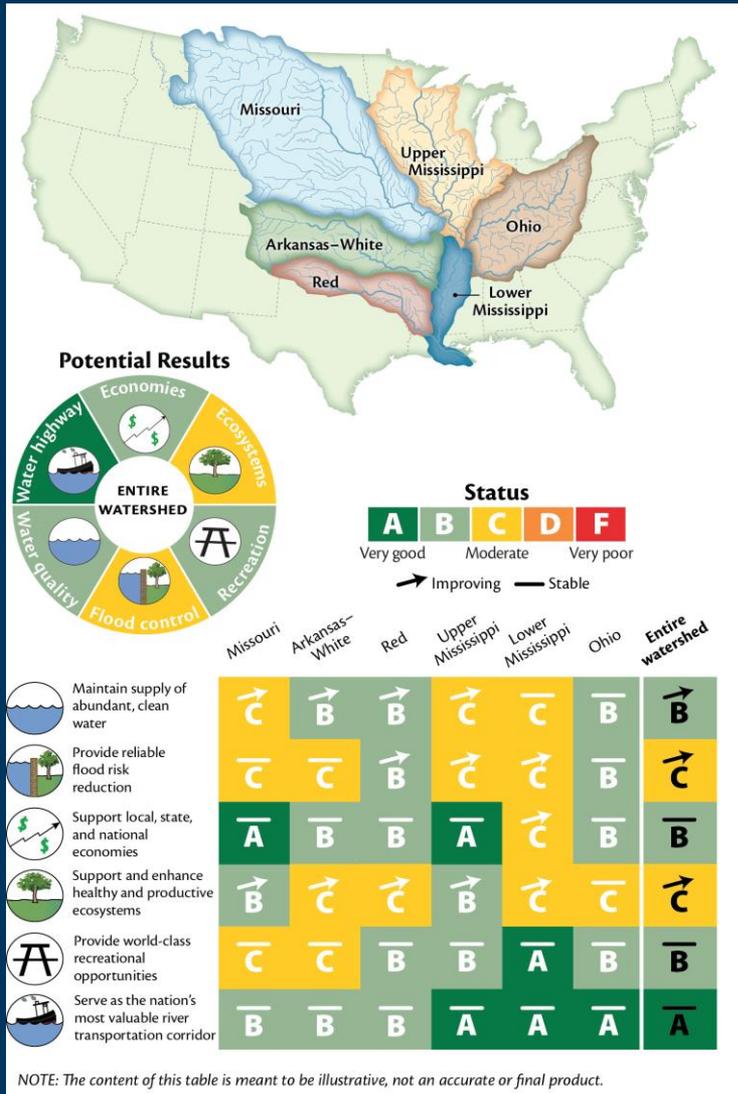

A vision for
America's
Watershed
Report Card

comprehensive economy society environment basin-wide
integrated multi-sector
Mississippi River river basin management

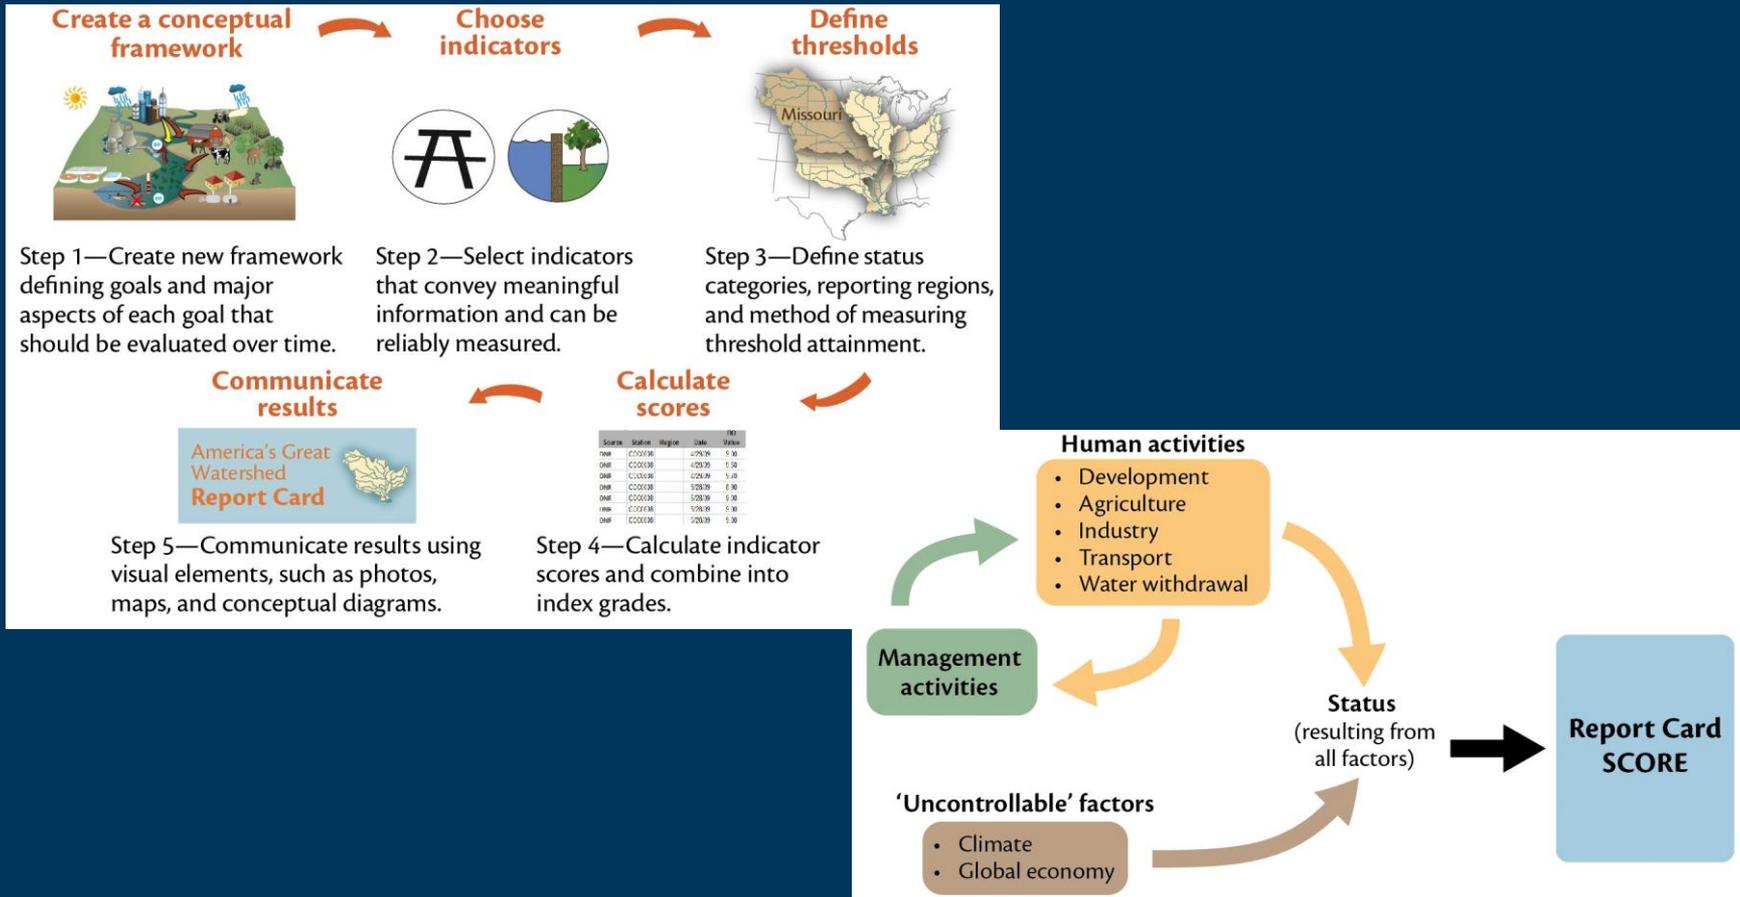

- Maintain supply of abundant clean water
- Provide reliable flood risk reduction
- Support local, state and national economies
- Support and enhance healthy and productive ecosystems
- Provide world-class recreation opportunities
- Serve as the nation's most valueable river transportation corridor

	Society	Economy	Environment	Overall
Maintain supply of abundant, clean water	C	B	C	B
Provide reliable flood risk reduction	C	B	C	C
Support local, state, and national economies	A	B	C	B
Support and enhance healthy and productive ecosystems	B	C	C	C
Provide world-class recreational opportunities	C	B	A	B
Serve as the nation's most valuable river transportation corridor	B	B	A	A

The need for an integrated approach

- Escalating demand for water
- More extreme weather events
- Growing global demand for food & fiber
- Aging infrastructure with no sound source of funding
