

The Chesapeake Bay Partnership's "Strategy Review System": **Developing** an Adaptive Management System for Restoring the Chesapeake Bay

National Conference on Ecosystem Restoration 2018
August 29, 2018
New Orleans, Louisiana

David Goshorn

Maryland Department of Natural Resources, Senior Bay Restoration Coordinator
Chair, Chesapeake Bay Program "Enhance Partnering, Leadership and Management" Goal Implementation Team

Laura Drescher, EPA Chesapeake Bay Program

Carin Bisland, EPA Chesapeake Bay Program

Kristin Saunders, University of Maryland Center for Environmental Science

Doreen Vetter, EPA Chesapeake Bay Program

Presentation Objectives:

1. Background – *why did we develop an Adaptive Management System?*

2. Developing the Process – *how did we develop the Adaptive Management System?*

3. Lessons Learned – *what would we do next time and what would we avoid?*

Presentation Objectives:

1. Background – *why did we develop an Adaptive Management System?*

2. Developing the Process – *how did we develop the Adaptive Management System?*

3. Lessons Learned – *what would we do next time and what would we avoid?*

Adaptive Management Charge: "The Partnership will..."

*"Adaptively
Manage at all
levels of the
Partnership to
foster continuous
improvement."*

(pg. 2)

2 0 1 4

*"...re-evaluate
biennially and update
strategies as
necessary with
attention to changing
environmental and
economic conditions."*

(pg 15)

And Here is How It shall be done...

The "Decision Framework"!

Presentation Objectives:

1. Background – *why did we develop an Adaptive Management System?*

2. Developing the Process – *how did we develop the Adaptive Management System?*

3. Lessons Learned – *what would we do next time and what would we avoid?*

First: We formed a committee

12 Members

- Dedicated Coordinator and Staffer
 - 8 Full-time CBP employees
- 3 "Partner" staff including 2 STAC representatives

Second: We held a "Kickoff" meeting

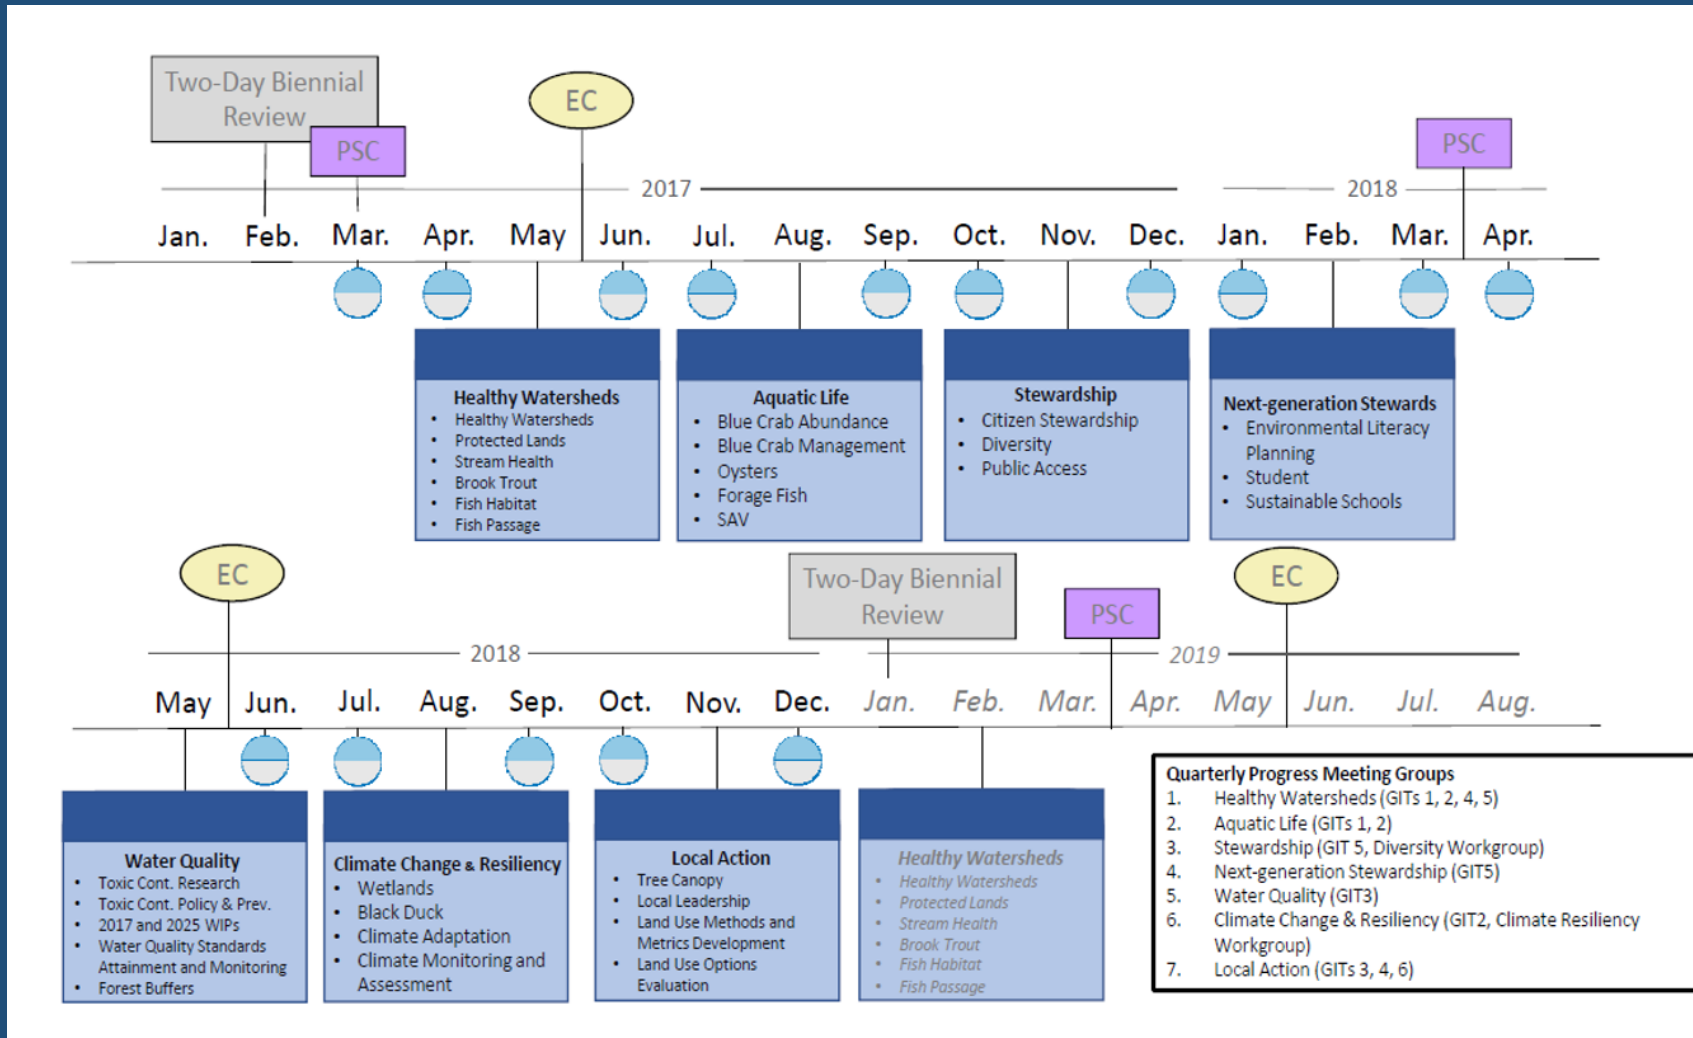

Objectives:

- 1) Introduce Decision Framework Concept.
- 2) Identify broad themes for consideration in Outcome reviews.
- 3) Identify recent developments in the Scientific, Fiscal, and Policy arenas for consideration in Outcome reviews.

possible

Third: We developed a schedule

Fourth: We generated a lot of instructions

Chesapeake Bay Logic Table and Work Plan

Primary focus: Goal or objective (Outcome, Activity, and Management Goal). Secondary: Activities (related to the Goal or Objective) that are necessary to achieve the Goal or Objective. Tertiary: Management Goals (related to the Goal or Objective) that are necessary to achieve the Goal or Objective. Quaternary: Management Goals (related to the Goal or Objective) that are necessary to achieve the Goal or Objective.

Factor	Current Status	Gap	Action	Measures	Expected Response	Interfactors
Water Quality	... (text) (text) (text) (text) (text) (text) ...

WORK PLAN MATRIX

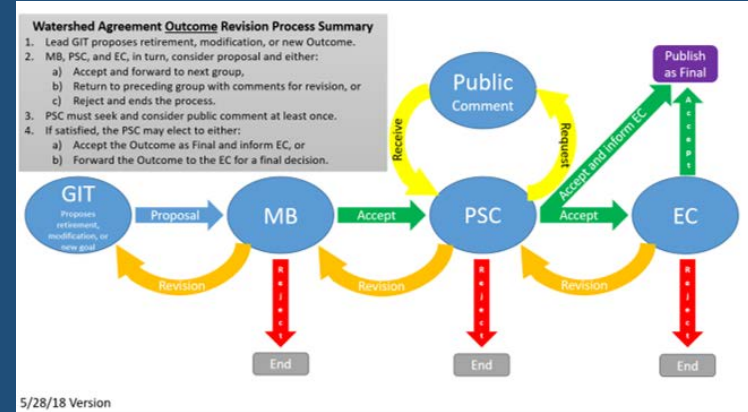

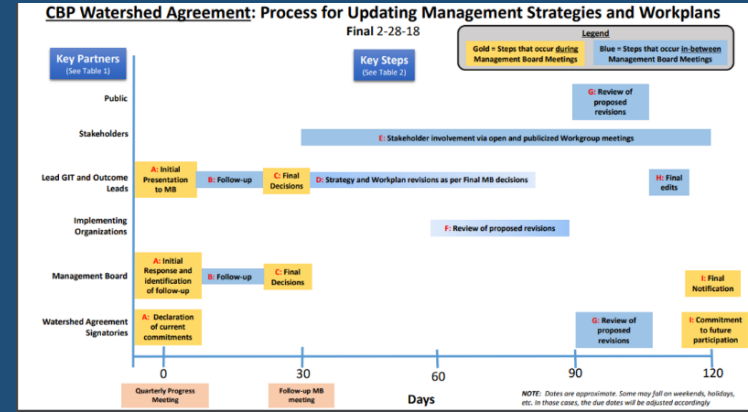

Activity	Duration	Priority	Responsible Party	Frequency	Location	Project Lead
...

Biennial Strategy Review System (SRS)

The Chesapeake Bay Program's Biennial Strategy Review System (SRS) is the adaptive management-based review process by which the Partnership seeks to meet the following Chesapeake Bay Watershed Agreement commitment:

"Goal Implementation Teams will re-evaluate biennially and update strategies as necessary, with attention to changing environmental and economic conditions. Partners may identify policy changes to address these conditions and minimize obstacles to achieve the Outcomes."

- Biennial SRS General Description (607.14 KB)
- Biennial SRS Outcome Groupings and Schedule (with legend) (116.03 KB)
- 2018 SRS Meeting Calendar (106.18 KB)
- Quarterly Progress Meeting Prep Schedule (July 2017-December 2018) (617.65 KB)
- Quarterly Progress Meeting Guide (317.78 KB)
- Quarterly Progress Meeting Logic Table and Work Plan (35.17 KB)
- Quarterly Progress Meeting Logic Table and Work Plan EXAMPLE (42.26 KB)
- Quarterly Progress Meeting Presentation Template (1.28 MB)
- Quarterly Progress Meeting Presentation Optional Graphic (35.23 KB)
- Management Strategy Review Guidance (675.17 KB)
- Management Strategy and Workplan Update Schedule (with dates) (699.77 KB)
- Process for Updating Watershed Agreement Strategies (April 2018) (384.2 KB)

Updated 10-17-2017

The Chesapeake Bay Program Biennial Strategy Review System:
A Guide to Your Quarterly Progress Meeting

Table of Contents

Executive Summary	2
Introduction	3
Quarterly Progress Meeting Template	4
Appendix A: Adaptive Management Decision Framework Diagram	7
Appendix B: Guide to Influencing Factors	8
Appendix C: Guiding Finance Questions	9
Appendix D: Quarterly Progress Meeting Schedule	10
Appendix E: Quarterly Progress Meeting Preparation and Follow-Up Timeline	11
Appendix F: Guidance on Updating Management Strategies and Two-Year Work Plans	13

Additional Attachments:

- Annotated Progress Graphic (.PPT)
- Logic Table (.XLS)
- Discussion and Analysis Presentation Template (.PPT)

Fifth: We held a lot more meetings

2018 SRS Meeting Schedule

So what did we end up with? A 3-Step Process

Analyze

Outcome leads use Decision Framework to review current Workplan and progress, and identify recommended adjustments.

Adjust

Outcome leads and Management Board meet, discuss, and finalize decisions on adjustments.

Act

Partnership revises 2-Year Workplan, Strategy, and (if necessary) Outcome and Goal accordingly.

Stream Health Logic Table and Work Plan

Primary Users: Goal Implementation Teams, Workgroups, and Management Board | **Secondary Audience:** Interested Internal or External Parties
Primary Purpose: To assist partners in thinking through the relationships between their actions and specific factors, setting programs and plans (either new or identified in their Management Strategies) and to help workgroups and Goal Implementation Teams prepare to present significant findings related to their actions and/or factors, existing programs and plans to the Management Board. | **Secondary Purpose:** To provide those who are not familiar with a workgroup to understand and track the logic driving its actions.
Intention: To use completed the table below, steps to meet that reviewing actions, adjusting actions, or adding new actions may require to adjust the high-level Management Approaches outlined in your Management Strategy to ensure these approaches continue to represent the collection of actions below listed.
Long term Target: 20+ metrics for success of Outcome.
Year year Target: Improvement of metrics for success.

Metrics	Specific metrics have been identified	Expected Response
Metrics have been identified	Yes	Timeline has been specified
Timeline has been specified	Yes	

WORK PLAN ACTIONS

Action #	Description	Performance Target(s)	Responsible Party (or Partner)	Geographic Location	Expected Response
1.1	Update and Refine the Chesapeake Bay Basin-wide Index of Biotic Integrity (IBI)	1.1. Updating the structure will be completed by 2015. The following monitoring year will be completed in 2016.	CH2M	Chesapeake Bay Watershed	Completed Spring 2017

"Developing the Process" Summary:

Adaptive Management is a lot of work, so you need:

#1) Dedicated staff.

#2) Involvement of all participants.

#3) Clear schedule and instructions of who does what when.

#4) Consistent process for all participants.

#5) Support for participants at all steps of the process.

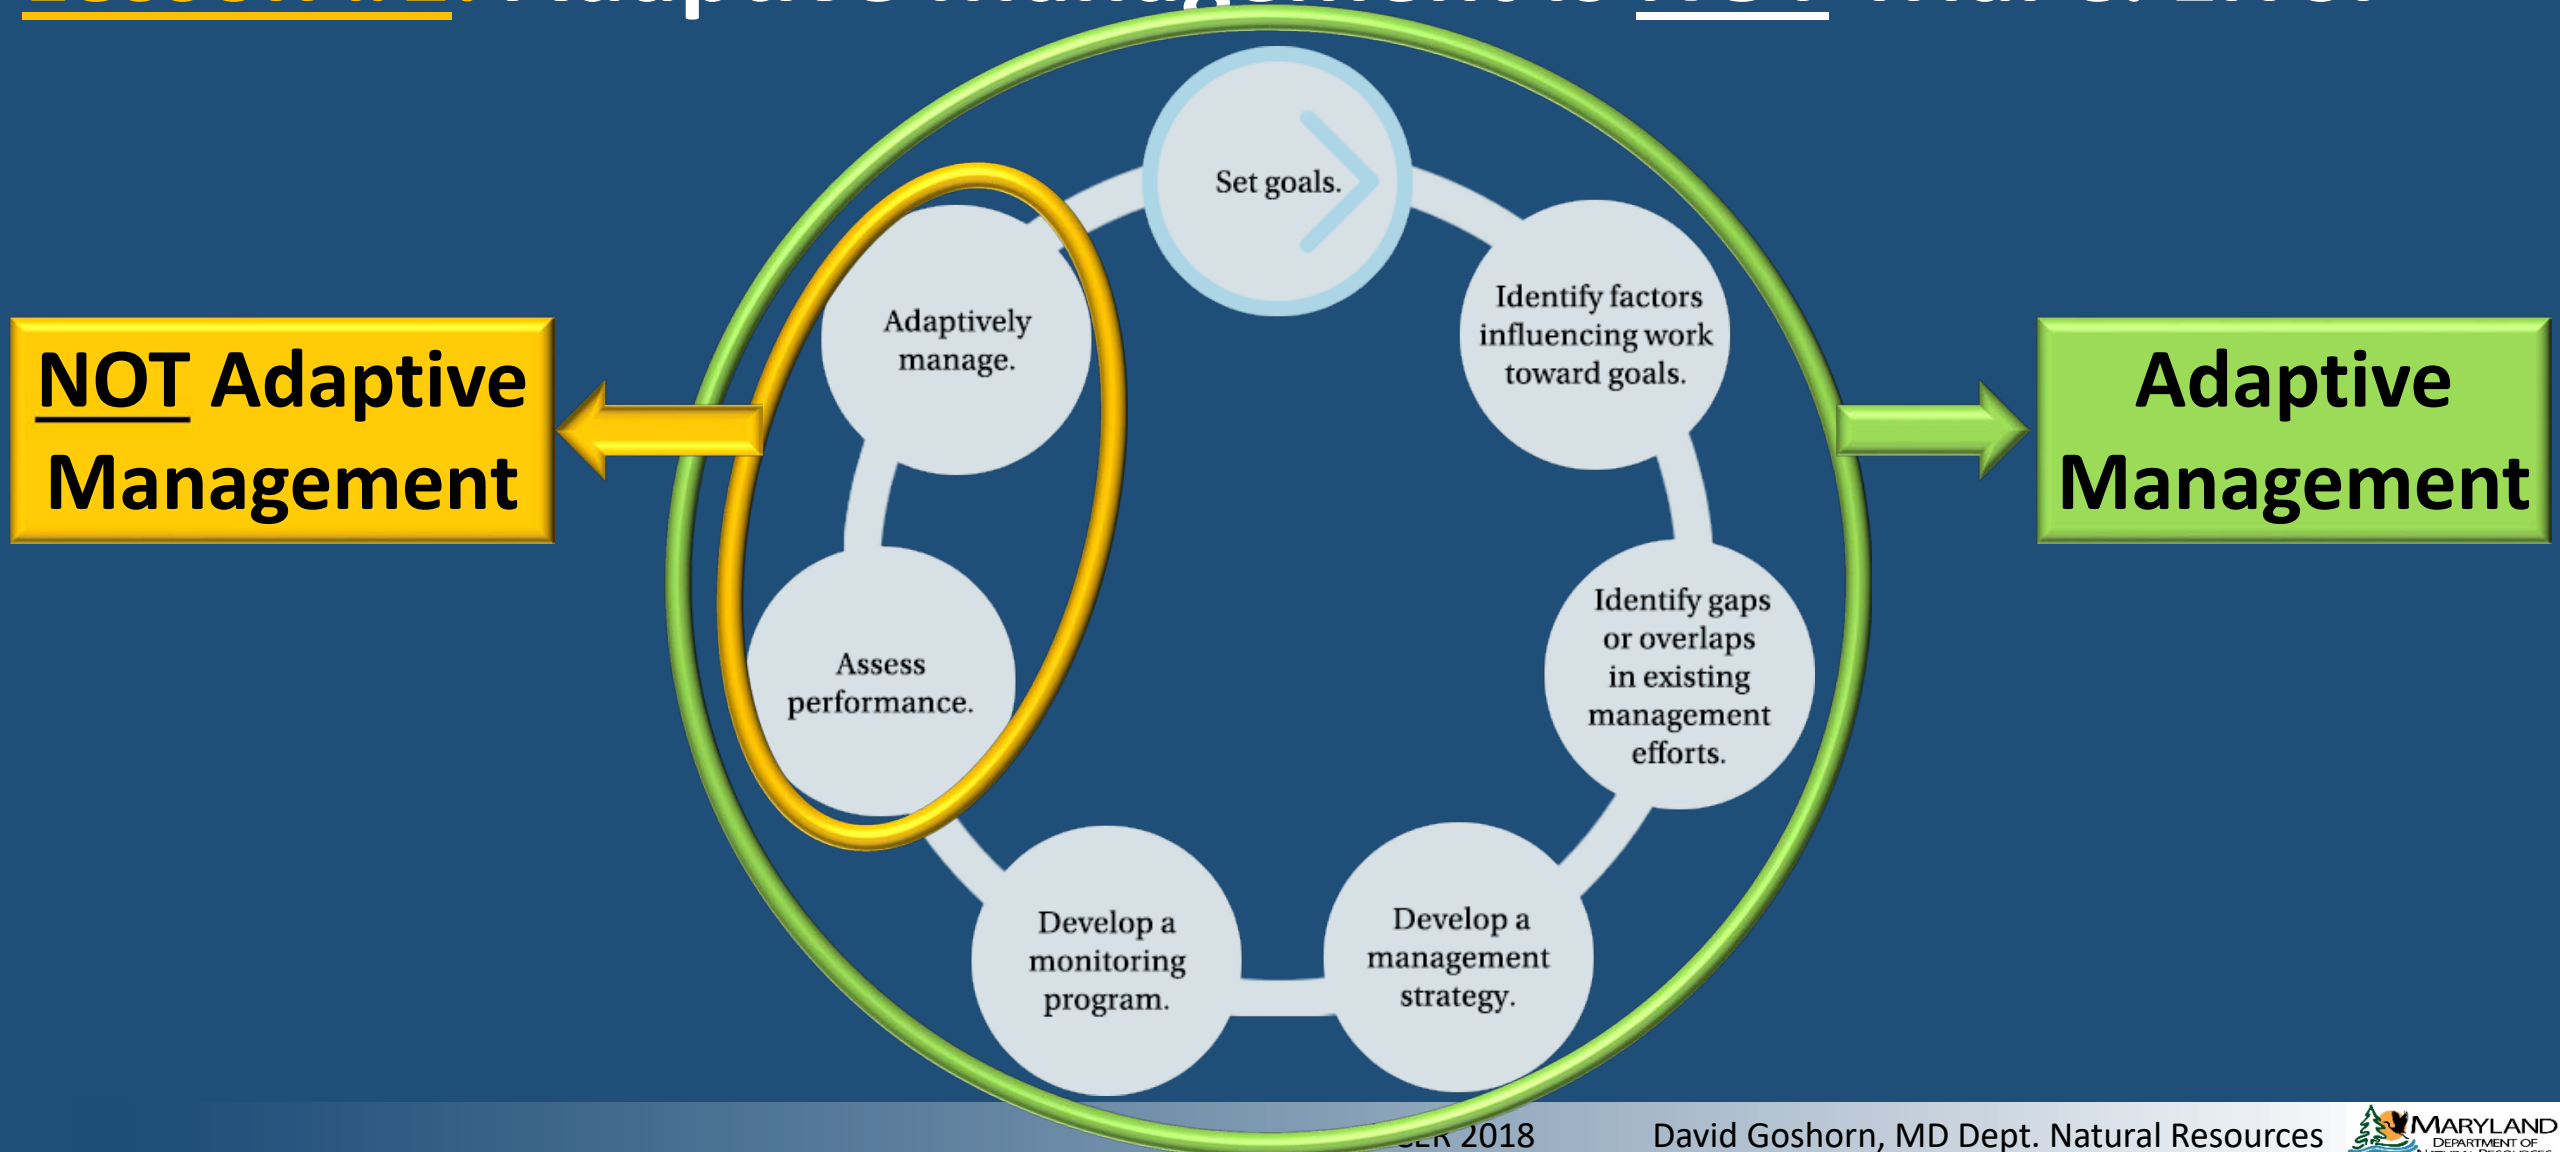

Presentation Objectives:

1. Background – *why did we develop an Adaptive Management System?*

2. Developing the Process – *how did we develop the Adaptive Management System?*

3. Lessons Learned – *what would we do next time and what would we avoid?*

Lesson #1: Adaptive Management is NOT Trial & Error

Lesson #2: Let the Adaptive Management Process be Adaptively Managed!

- Accept and be open with all that it won't be perfect from the beginning.
- Seek input from the participants and seriously consider their advice.
- Consider phasing in the Adaptive Management in manageable stages.

Lesson #3: Don't forget about the "Management" part of "Adaptive Management"!

VS

Lesson #4: You must have dedicated support staff.

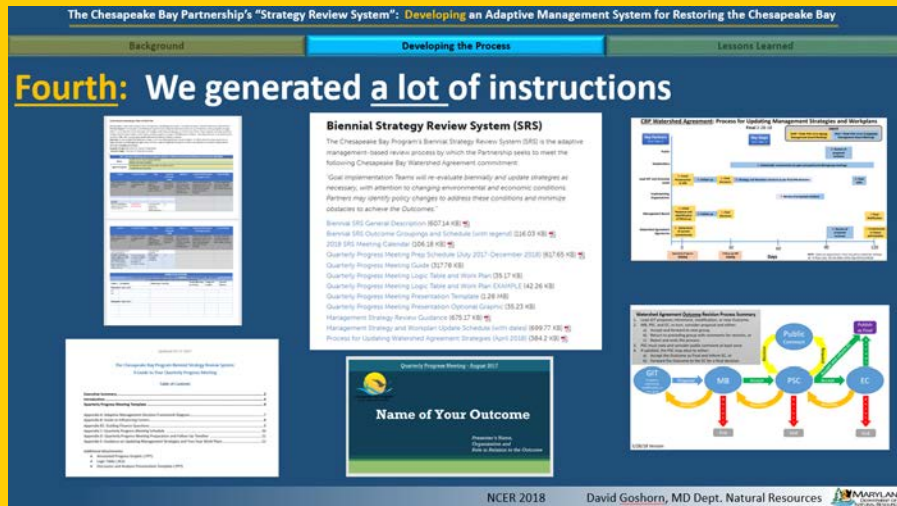

Lesson #5: Make it as clear and simple as possible.

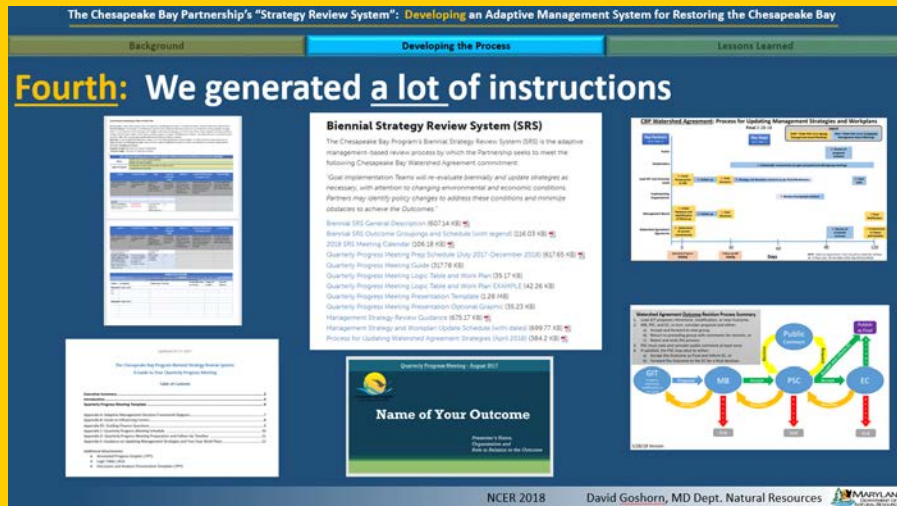

The Chesapeake Bay Partnership's "Strategy Review System": **Developing** an Adaptive Management System for Restoring the Chesapeake Bay

Background Developing the Process Lessons Learned

Fourth: We generated a lot of instructions
