SNAP SHOT OF THEMES & SESSION TOPICS

Keynote David Fann, will highlight some of the significant changes that radically transformed SW Florida waterways. A look to our past can “help us realize how the aspirations of society can impact the future of this natural resource system. Armed with this information, citizens can do a better job of shaping a future that includes the safeguards needed to maintain a healthy environment and growing communities.”
(Margaret Davidson, NOAA)

Working Waterfronts Workforce Development

- The National Working Waterfront Network: Working for You
- Washington Maritime: A Collaborative Approach to Industry Sustainability
- Surviving Commercial Fishing Declines
