BioGeo2021 Moderator Roster

Session Number	Day/Date	Session Time	Moderator	Co-Moderator	Session Title
1	Monday, March 22	1:30pm - 3:45pm	Gail Chmura	Anushka Sah	Broadening Blue Carbon Research
2	Monday, March 22	1:30pm - 3:45pm	John Day	John White	Nutrient Biogeochemistry in Coastal Basins of the Mississippi Delta with Special Reference to Denitrification
3	Monday, March 22	1:30pm - 3:45pm	Manohardeep Josan	Jacob Berkowitz	Part 1: Enhancing Sustainability of Vegetation in the Everglades STAs
4	Tuesday, March 23	1:30pm - 3:45pm	Nia Hurst	Erol Knaus	Constructed Wetlands / Wetland Restoration
5	Tuesday, March 23	1:30pm - 3:45pm	Patrick Inglett	Ramesh Reddy	Advances in Biogeochemistry: Science and Application
6	Tuesday, March 23	1:30pm - 3:45pm	Bill Mitsch	Gail Chmura	Sustainably Solving Legacy Nutrients in Landscapes with Wetlands and Wetlaculture
7	Wednesday, March 24	1:30pm - 3:45pm	Victor Rivera- Monroy	Richard Keim	Forests and Mangroves
8	Wednesday, March 24	1:30pm - 3:45pm	Jacob Berkowitz	Christine VanZomeren	Interdisciplinary Soil Biogeochemistry Research - Novel Tools and Approaches
9	Wednesday, March 24	1:30pm - 3:45pm	Camille Stagg	Melissa Baustian	Toward Mitigating Climate Change: Quantifying Wetland Carbon Sequestration and GHG Emissions
10	Thursday, March 25	1:30pm - 3:45pm	Len Scinto	Todd Osborne	Dynamics of Coastal Systems
11	Thursday, March 25	1:30pm - 3:45pm	David Krabbenhoft	Brett Poulin	The Interplay of Ecosystem Restorations and Effects on Wetland Biogeochemistry: Lessons from the Florida Everglades
12	Thursday, March 25	1:30pm - 3:45pm	Loraé Simpson	Julia Cherry	Shifting Ecosystems: Consequences for Decomposition in Coastal Wetlands
