

# BioGeo2021 Poster Directory

As of: 3/18/2021

First Name	Last Name	Organization	City	State / Province	Country	Format	Abstract Title	Presentation Format
Jennifer	Bennett	University of Central Florida	Orlando	FL	United States	Poster	Relationship Between Soil Carbon Storage and Vegetation Community in an Urbanized Landscape	Available as a Recording on Symposium Web
Jacob	Berkowitz	US Army Engineer Research and Development Center	Vicksburg	MI	United States	Poster	Improved Approaches for Interpreting and Presenting Redox Data	Available as a Recording on Symposium Web
Ashley	Boggs	University of Central Florida	JUPITER	FL	United States	Poster	Impacts of Clay Flocculation Algaecide on Freshwater Wetland Biogeochemistry	Present during Zoom Poster Session
Jacob	Cheng	Louisiana State University Wetland and Aquatic Biogeochemistry Lab	Dubach	LA	United States	Poster	Areal Denitrification Rates in Created vs Natural Coastal Marshes: Implications for River Reconnection	Present during Zoom Poster Session
Sophie	Comer-Warner	McGill University	Montreal	Quebec	Canada	Poster	How Will Sea Level Rise and Invasive Vegetation Impact Greenhouse Gas Fluxes from Salt Marsh Soils?	Present during Zoom Poster Session
Alma	García	Universidad Autónoma Metropolitana	Ciudad de México	Ciudad de México	Mexico	Poster	Methanogenic Activity in Sediments and Methane Emissions in the Coastal Lagoon La Mancha, Veracruz, Mexico	Available as a PDF on Symposium Web Site
Victoria	Gomez	School of Geosciences, University of Louisiana at Lafayette	Lafayette	LA	United States	Poster	Does Stomatal Conductance in Southern Cattails ( <i>Typha domingensis</i> ) Change During Methane Fluxes Observations?	Present during the Zoom Poster Session
Hannah	Hartzler	Everglades Wetland Research Park	Naples	FL	United States	Poster	Plans To Compare Wetlaculture Wetland Mesocosms Rotated To Horticulture In Temperate And Tropical Regions In 2021	Present during Zoom Poster Session

# BioGeo2021 Poster Directory

As of: 3/18/2021

First Name	Last Name	Organization	City	State / Province	Country	Format	Abstract Title	Presentation Format
Anthony	Mirabito	University of Central Florida	ORMOND BEACH	FL	United States	Poster	Quantifying Mineral Associated Organic Matter in Subtropical Peatlands	Present during the Zoom Poster Session
Chelsea	Nitsch	University of Central Florida	Longwood	FL	United States	Poster	Can Biodegradable Restoration Materials Impact Biogeochemical Cycling?	Present during the Zoom Poster Session
Danielle	Winter	Purdue University	West Lafayette	IN	United States	Poster	Assessing the Role of Vegetation in Regulating Tradeoffs between Water Quality and Climate Regulation in Agricultural Wetlands	Present during Zoom Poster Session
David	Yannick	University of Central Florida	Orlando	FL	United States	Poster	Sulfate and Soil Organic Matter: a Toxic Relationship in Freshwater Wetlands?	Present during Zoom Poster Session
Tashiro	Yuto	Tokyo University of Agriculture and Technology	Nakano-ku	Tokyo	Japan	Poster	Importance of Permafrost Wetland in Mid-Amur Basin as Sources of DOC and Dissolved Iron to Rivers	Available as a PDF on Symposium Web Site
Le	Zhang	Louisiana State University	Baton Rouge	LA	United States	Poster	Marsh Growth Dynamics Modeling on an Expanding Delta Using the Coupled Wave-Flow-Sediment Transport Model (COAWST)	Present during Zoom Poster Session
Li	Zhang	Everglades Wetland Research Park, Florida Gulf Coast University	Naples	FL	United States	Poster	Restoring Urban Wetlands in South Florida: Ecological Succession, Hydrology and Water Quality	Present during Zoom Poster Session
