

Icebreaker/intention setting activity

- For # 1 and 2, write your responses on sticky notes or directly on the flip charts
 - For #3-6, please write your needs/questions/responses on sticky notes and attach them to the appropriate flip chart
 - For #4-5, please include your name to facilitate networking
 - Look at others' "posts" for questions 4 and 5. If you can help with an expressed need/question, please attach a sticky note to the one with that need—with "I can help" and your name.
 - Review these throughout the Symposium and add/respond as appropriate!
1. What one or two words come to mind when you hear the word "flooding"?
 2. What one or two words come to mind when you hear the term "flooding adaptation"?
 3. What do you hope to take away from this symposium?
 4. What flooding adaptation research questions/knowledge needs do you have?
 5. What opportunities/needs do you see for collaboration (between academics, industry, municipalities, NGOs etc.)?
 6. What roadblocks have you run into when planning/implementing flooding adaptation projects?
