

SYMPOSIUM ON
FLOODING ADAPTATION

— *Spotlighting Solutions for Florida* —

October 28-31, 2024
Kissimmee, Florida

The Water Inundation Symposium organizing committee invites you to join us in Kissimmee, FL!

This symposium is designed to unite communities of practice throughout the state as we collectively address and improve outcomes for water inundation stemming from high tides, storm surge, extreme events, runoff from excessive rainfall, poor drainage, and other sources impacting the built environment.
