|-------------------------|--|
| Pre-Day 1               | Prior to August 5, 2025  |
| ON YOUR OWN             | Online link provided by instructor via email   |
| (30 min)                | Course Pre-test (30 min): Complete online-   |
|                         |  |
| Day 1                   | Tuesday, August 05, 2025 - Live Online Via Zoom  |
|                         | Zoom link provided by email  |
| 6:00 - 7:00pm           | <ul style="list-style-type: none"> <li>• Welcome to FMNP Invasive Plants!</li> <li>• Course expectations, goals, and format</li> <li>• Introductions and Icebreaker</li> <li>• Google Drive Tutorial</li> <li>• Questions and Troubleshooting</li> <li>• Student roster corrections</li> </ul> |
| 7:00 - 8:00pm           | Presentation: Introduction to Invasive Plants of Florida   |
| 8:00 - 9:00pm           | Lakeville Part 1   |
| 9:00 - 9:30pm           | Questions and Discussion, Description of Assignments   |
| ON YOUR OWN<br>(30 min) | Watch Silent Invaders-Link provided in class   |

|                          |   |
|--------------------------|---|
| Day 2                    | Thursday, August 7, 2025 - Live Online Via Zoom (Live Class Session via Zoom) |
| 6:00 - 6:15pm            | Discussion of videos  |
| 6:00 – 7:00pm            | Presentation: Plant Morphology Lab and activities                             |
| 7:00 – 8:00pm            | Presentation: Presentation: Upland Invasive Plants                            |
| 8:00 –8:10pm             | Break   |
| 8:10 - 8:50pm            | Introduction to iNaturalist   |
| 8:50 – 9:00pm            | Questions & Discussion, Description of Assignments                            |
| ON YOUR OWN<br>(1 hrs.+) | Research your organisms and citizen scientist roles for Lakeville.            |

|                           |  |
|---------------------------|--|
| Day 3                     | August 8-10, 2024 On Your Own Field Trip   |
| ON YOUR OWN<br>(8 hrs. +) | Explore your neighborhood, parks and your yard, id plants and determine the level of invasives and research some ways to combat invasives and to get people involved in invasive removals and planting natives. Determine a real plan of Action that you could feasibly take to combat the invasives issue. Really think about this and create a plan that you could take to a commission meeting and convince them with. Include costs associated with controlling invasives and issues invasives present versus running a community-based volunteer event to control invasives, or educational materials, or other incentives to encourage invasive removal and planting natives. More instruction given in class. If time remains-work on Lakeville research. |

|                        |   |
|------------------------|---|
| Day 4                  | Tuesday, August 12, 2025 - Live Online Via Zoom                                 |
| 6:00 - 7:00pm          | Share and Discuss Plant ID activity/field trips                                 |
| 7:00 – 8:00pm          | Presentation: Characteristics of Plant Families and more info on plant id tools |
| 7:00 - 8:10pm          | Break   |
| 8:10 – 9:30pm          | Presentation: Aquatic Invasive Plants   |
| ON YOUR OWN<br>(1 hr.) | Revise your action plan based on what you learned tonight.                      |

|                |  |
|----------------|--|
| Day 5          | Thursday, August 14, 2025 - Live Online Via Zoom   |
| 6:00 – 7:00pm  | Share your Completed Plan of Action (quick 5 minutes each, make it succinct)                             |
| 7:00 – 8:30pm  | Lakeville Part 2-conclusion  |
| 8:30 – 8:40pm  | Break  |
| 8:40 - 9:20pm  | Post-test, and Course Evaluation. <i>Post-test and Evaluation links provided by instructor via chat.</i> |
| 9:20 - 9:30pm  | Review Post-test, watch endowment video  |
| 9:30 - 10:00pm | Graduation   |
