

FLORIDA MASTER GARDENER

CONTINUED TRAINING CONFERENCE

October 20-23, 2013

Embassy Suites Orlando - Lake Buena Vista South | Kissimmee, Florida

Dear Master Gardener,

I am so excited to be able to open the registration for this year's continued training conference. This year the conference is in Kissimmee and it is more important than ever that you attend. We have worked hard to make the event affordable and have been able to reduce the registration fee dramatically while offering more education hours than ever before! At the request of our statewide Master Gardener Advisory Committee, we will only be holding these large three day conferences every two years. They will be held on the odd years. On the even years, we will be holding low cost regional one day training events to make the education more available to everyone.

This year's event is being held at the brand new Embassy Suites Orlando – Lake Buena Vista South Hotel located in Kissimmee. This is an all-suite property so the rooms are spacious and very conducive to sharing. This can be another way to make the event more affordable. All the hotel guests also receive a free cooked to order breakfast for each night they stay and there is a complimentary manager's reception each evening. All these reasons are great, but what is even better is the meeting space is perfect for our group. It should be a great atmosphere for learning. The location is just minutes from the Disney parks and all the entertainment options that area has to offer.

Preceding the conference we will have an afternoon of optional tours offered on Sunday October 20th. We have two tours to choose from. The first is to Bok Tower Gardens. This amazing garden has been open since 1929 and is a true gem. The second tour is a Central Florida landscape tour which will be led by Kristen and Stephen Pategas the Owners of Hortus Oasis. They will share their knowledge and experience in landscape design as you visit four different properties.

The conference really kicks off Monday October 21st. We start the day with two general sessions dealing with plant breeding and water saving irrigation technology. The afternoon is filled with a variety of concurrent session options before we bring you back for another 'water' focused general session by a faculty member from Utah State University. The day concludes with the popular welcome reception. The evening is free for you to enjoy the new friends you have made throughout the day.

Day two again begins with a general session on tree selection before we start another round of concurrent session options. After lunch we have the 4H Plant ID and Judging Competition where counties compete for the top team scores. Those not on a team can try individually. It is a really great event to test your knowledge. If the contest is not your thing, there will be a panel with county agents to discuss how issues are handled around the state. The afternoon is filled with more concurrent options and a general session designed to help you hone your diagnostic skills. The evening is open for you to take advantage of the local area.

The third day starts with the ever popular Dr. Jaret Daniels speaking on Today's Butterfly Gardens. We then have the awards program followed by a plated lunch. The conference finishes up with Dr. Gail Hansen teaching about Landscape Design with Function in Mind.

The planning committee has worked hard to make this a great event for learning and at a reasonable cost. Come join me in beautiful Central Florida, reserve your room and register early as this event is not to be missed.

I hope to see you in Kissimmee!

Sincerely,

Tom Wichman

Florida Master Gardener Coordinator

FLORIDA-FRIENDLY LANDSCAPING

The Florida-Friendly Landscaping™ (FFL) Program was developed to provide science-based interdisciplinary educational resources that result in the adoption of environmentally friendly landscape practices to reduce water use & non point source pollution, protect water bodies and natural resources and enhance the lives of Floridians. Master Gardeners who have received additional FFL training in their county can become Florida Yard Advisors and help homeowners evaluate and reduce the environmental impacts of their landscapes.

All Master Gardeners play a key role in educating homeowners and Florida residents about the nine Florida-Friendly Landscaping™ principles:

- Right Plant, Right Place
- Water Efficiently
- Fertilize Appropriately
- Mulch
- Attract Wildlife
- Control Yard Pests Responsibly
- Recycle
- Reduce Stormwater Runoff
- Protect the Waterfront

Conference participants will have the opportunity to attend concurrent sessions sponsored by The Florida-Friendly Landscaping™ Program.
