Marine Spatial Planning in Washington
The Starting Point

- Tribal co-management for usual and accustomed areas
- Federal and state public lands and marine waters
- Local marine resource committees
- U.S. Commission on Ocean Policy in Washington state
- State Ocean Caucus of 10 agencies led by Governor’s Office
- Washington State Legislature
- Washington Coastal Marine Advisory Council
Marine Spatial Planning in Washington

The Process

- Stakeholders
- Science Advisory Panel
- General Public
- State Ocean Caucus
- Tribes
- Federal and Local Government

Block Island Renewable Energy Zone:
A 2 kilometer setback from the state waters limit and marine navigation areas. Map includes select Areas of Particular Concern.
“Words of Wisdom”

San Francisco:
• A "neutral arbiter" facilitates mutually agreeable solutions.
• MSP processes are beneficial to planning and accommodating smaller scope projects.

Washington State
• Know where you are starting from.
• Manage expectations.

Rhode Island:
• Incorporating stakeholder engagement structures into your plan results in more effective plan implementation.
• Build a broad base of leadership.
