

# Sustainable Water Resources

Complex Challenges, Integrated Solutions

**February 25-26, 2020 | J. Wayne Reitz Union | Gainesville, FL**

## UF Water Institute Symposium

We invite you to participate in the 7th biennial UF Water Institute Symposium. The Symposium will bring together individuals from a broad range of disciplines and organizations to explore complex water challenges from multiple perspectives. The 2020 Symposium will focus on innovative science, technology, cultural, policy, and management solutions to the following pressing issues:

- Harmful Algae Blooms (HABs) in springs, lakes and coastal waters
- Sources, impacts and management of contaminants (*nutrients, pharmaceuticals, PFAS, microorganisms, metals*)
- Water scarcity, allocation and use
- Impacts of and resilience to climate change, extreme events and sea level rise

Symposia presentations, posters and panels will address biological, physical, social, economic, engineering, management, policy and regulatory aspects within and across these water issues. The Planning Committee encourages presentations that:

- Focus on public perceptions, science communication, education, and stakeholder engagement
- Consider influences across a full range of spatial and temporal scales
- Present innovative analytical methods, technologies, monitoring and modeling approaches

Student poster authors are eligible to compete for “Best Poster” awards based on the quality of the abstract, poster and discussion. Four poster winners will receive prizes of \$1000 each to be used as funding to support future participation at a national conference.

## Submit an Abstract!

We invite all individuals interested in presenting to submit an abstract between the dates of **August 5–October 4, 2019**.

## Sponsor Today!

Support the symposium while showcasing your contribution of knowledge, technology, programs and services that provide solutions for pressing issues that challenge water resources sustainability. Sponsorship opportunities ranging from \$750 to \$10,000 are available on the symposium website. Sponsor recognition begins immediately, so maximize your benefits by sponsoring early!

## Registration Fees & Deadlines

<b>Early Rate</b> .....	<b>\$225</b>
<i>(by December 9, 2019)</i>	
<b>Regular Rate</b> .....	<b>\$275</b>
<i>(by January 14, 2020)</i>	
<b>Late Rate</b> .....	<b>\$325</b>
<i>(by February 18, 2020)</i>	
<b>Student Rate</b> .....	<b>\$75</b>
<i>(by January 14, 2020)</i>
